

ANFF Constitution

July 14, 2026

Welcome to the Armenian National Fantasy Football League, a multi-tiered system built on integrity, commitment, competition, and a shared Armenian connection that brings us together. This constitution outlines how our leagues operate and ensures a balanced and consistent structure for all managers.

League Structure

Three 12 team leagues - A, B, & C with identical scoring, roster, and playoff rules

Year 1 (2024) results are used for placement into the A & B league and every subsequent year, top 3 in B/C league will replace bottom 3 in A/B league post playoffs

Promotion

Top 3 teams in B AFTER **playoffs** will be promoted to the A League (see below)

Top 3 teams in C AFTER **playoffs** will be promoted to the B League (see below)

Top Regular Season PF scorer in B & C (if not already in post-playoffs top 3) will take the 3rd promotion spot, booting the 3rd place finisher *regardless of rank*

- Promoted B/C teams (1/2/3) take the spot of the relegated A/B teams (10/11/12)

Relegation

Bottom 3 teams in A AFTER **Toilet Bowl** will be relegated to the B League

Bottom 3 teams in B AFTER **Toilet Bowl** will be promoted to the C League

Bottom Regular Season PF scorer in A & B (if not already in post-toilet bowl bottom 3) will take 3rd relegation spot (10th place), saving the 3rd lowest PF team from relegation *regardless of standings*

- Relegated A/B teams (10/11/12) take the spot of the promoted B/C teams (1/2/3)

Toilet Bowl

- The bottom 5 teams at the end of the regular season (W14) enter the Toilet Bowl. Head to Head matchups don't matter & the only goal is maximizing points
- Lowest 3 PF amongst the Toilet Bowl teams are relegated (exception above)

Draft Order

Draft order is based on inverse post playoffs standings from previous year

Newcomer 12th place team gets 1st pick, Champion gets 12th pick and so on...

Buy-In/Payout

A League

Buy in - \$100
1st - \$690
2nd - \$200
3rd - \$100

Keeper Rules

Eligibility

- Keeper rules apply only to A League, B and C Leagues are exempt
- Owners promoted into A League must select keepers from their new team's roster

Rule 1 - Drafted Players

If a player was drafted in the previous season, the keeper cost is based on the round they were originally drafted

Cost:

- Year 1: Original draft round - 1 | Each additional year kept: Move up one more round

Example:

- Drafted in Round 7 in 2025

2026 = Costs Round 6 pick / 2027 = Costs Round 5 pick / 2028 = Costs Round 4 pick

Rule 2 - Waiver Claimed

If a player was added via waivers, the keeper cost follows a fixed schedule

Cost:

- Year 1: Round 10 | Each additional year kept: Move up one round

Example:

2026 = Costs Round 10 pick / 2027 = Costs Round 9 pick / 2028 = Costs Round 8 pick

Rule 3 - Traded Players

A player's keeper cost is determined by how they were originally acquired

- If drafted the prior season, follow Rule 1
- If added via waivers the prior season, follow Rule 2
- If currently a keeper, cost to keep is round cost to keep in previous season minus 1

Rule 4 - Maximum Keeper Length

Players may be kept for up to three (3) seasons on the same team, including the season they were drafted. If a keeper is traded, this timer resets

Example:

- Drafted in 2025
- Eligible to be kept in 2026 and 2027
- Returns to the draft pool for the 2028 season

Keeper Deadline

August 15 at 11:59 PM ET
